## WINTER QUARTER ENROLLMENT UP FROM LAST YEAR'S FIGURES

Winter quarter enrollment is up over last winter's figures with 4,478 students total and 3,293 FTE, compared with 4,026 total and 3,006 FTE for the same period of 1980. That is an increase of 452 students in total enrollment and 287 in FTE for the winter term.

Enrollment for fall, 1980 was a record with 4,649 total and 3,422 FTE. The winter quarter shows a loss of only 171 total students and 129 FTE. A drop in enrollment was expected between the fall and winter terms because of the traditional decline during that period and because the fall quarter figures set records for the campus.

## DR. KATHY PEZDEK WINS \$122,000 NIE GRANT

Dr. Kathy Pezdek (Psychology) has been awarded a \$122,000 grant from the National Institute for Education to study children's television viewing. The research will build on work done previously by Dr. Pezdek and University of Massachusetts researcher Dr. Danny Anderson.

The first stage of research has already been completed; another three stages are planned. Results to date indicate that children may be less sponge-like in their TV viewing and exercise much more discretion than popularly supposed.

Dr. Pezdek hopes that results of the research, including whether visual or verbal content of television programs is retained better by youthful viewers, will be passed along to representatives of the Children's TV Workshop, the non-profit corporation which produces the Sesame Street series. Dr. Pezdek plans to meet with CTVW producers in New York at the conclusion of the research project.
